PERKELE

Suecia / Punk - '77 - '82 - Oi!

Perkele started playing punk rock in 1993. The bands early influences came both from heavy metal and punk rock. Bands like Iron Maiden, Helloween, Strebers ad Bad Religion coloured the Perkele sound and still do. The first demo tapes and the first album "Från Flykt Till Kamp" had Swedish lyrics. On Från Flykt Till Kamp influences from Street punk, Ska and Reggae also came in to create the sound of Perkele. Perkele started to be recognised abroad as well and from Voice of Anger the band started to write their songs in English. Voice of anger also helped Perkele to get their first live shows in Europe. Since this, Perkele has developed into a band with a "Heart Full of Pride" and a large following from around the world.
